## Professional Summary

Results-driven Django Developer with over 3 years of experience in designing, developing, and deploying robust, full-stack web applications. Proven ability to translate project requirements into scalable backend systems, integrate third-party APIs, and build user-centric features. Passionate about leveraging technology to solve real-world problems and committed to continuous learning and professional growth.

## Technical Skills

- **Languages:** Python, JavaScript, HTML5, CSS3, SQL
- **Frameworks & Libraries:** Django, Django REST Framework, Celery, Bootstrap, jQuery
- **Databases:** PostgreSQL, MySQL, Redis
- **Tools & Platforms:** Git, GitHub, Docker, CI/CD, Linux, AWS S3
- **APIs & Services:** Stripe, Flutterwave, Paystack, RESTful APIs

## Professional Experience

### Freelance Django Developer | Remote | Jan 2023 – Present

- Engineered and launched multiple full-stack web applications for student final-year projects, delivering production-ready solutions on schedule.
- Designed and implemented core functionalities including secure user authentication, role-based access control (RBAC), and comprehensive admin dashboards.
- Utilized Django, PostgreSQL, and Bootstrap to build and deploy scalable and maintainable codebases.

## Projects

**PastQ – Exam Preparation Platform** A comprehensive web application designed to help students prepare for exams by providing access to a large database of past questions.

- Designed a dual-role authentication system for Students and Lecturers.
- Developed a dynamic quiz engine and a searchable question bank with advanced filtering.
- **Tech Stack:** Django, PostgreSQL, Bootstrap, JavaScript.

**RiseUp – SaaS for Addiction Recovery** A subscription-based SaaS application offering tools and community support for individuals on their addiction recovery journey.

- Implemented a habit-tracking system and integrated the Flutterwave API for secure, recurring subscription payments.
- Utilized Celery and Redis to manage asynchronous tasks like sending daily motivational emails and notifications.
- **Tech Stack:** Django, Celery, Redis, JavaScript, HTML/CSS.

**ArtisanLens – Photo-Sharing & E-commerce SaaS** A platform for professional photographers to showcase their work, manage pricing, and sell prints directly to consumers.

- Built a multi-user photo upload and management system with integrated e-commerce functionality.
- Integrated Stripe and Flutterwave APIs to handle complex payouts and commission structures for photographers.
- **Tech Stack:** Django, PostgreSQL, Stripe API, Paystack API.

## **Education**

**B.Sc. in Computer Science** | Bayero University, Kano
